Trenell McCauley, the *Amazing and Brilliant* CEO/Principal Designer of *Serenity Interiors by Trenell*, Her Award-Winning Luxury Interior Design Company.

BAD ASS ENTREPRENEUR. CREATIVE. VISIONARY.

As an *extremely ambitious entrepreneur* from Prince George's County, Maryland ("The DMV"), Trenell McCauley was the Founder of a *very successful virtual assistant business* for more than ten years. In less than a year, it morphed into a SBA (8a) certified federal government contracting business which spanned *from the East Coast to the West Coast*. After dealing with several unfortunate events, Trenell decided to transfer her book of business and close her company.

Trenell knew that closing her company would be a *minor hiccup in her plans*. She knew that God would lead her to her desired path. She also knew she needed a job that would *enhance her skillset* which would benefit Trenell when she returned to the entrepreneurial world.

Ultimately, Trenell landed an opportunity with a *global multi-million dollar organization* where she managed their operating budget, global offices, and administrative staff. She correlated that her experience with this organization would help her *get back into the entrepreneurial arena*. Her business will be a multi-million dollar business so she needed to reinforce her knowledge of back-office systems to become successful and stay successful.

Serenity Interiors by Trenell, LLC (SIT) was founded February 2019 through the *strong encouragement* of her husband and daughter. The *twinkle in Trenell's eyes* returned as she began to finally do what she has always loved to do. Her passion for fashion and styling began as a teenager. Her love for beautiful things and serene environments grew so much so that she found herself *giving styling and decorating advice* to many of her family and friends.

Serenity Interiors by Trenell is a *Luxury Concierge Interior Design business* specializing in creating luxury bespoke, client-focused spaces with innovative solutions. These innovations complement the personalities of both the home or office space and its Owner.

Trenell's style can be described as a *Bold Color Modern/Contemporary Mix* with a splash of Glam. Trenell believes that every room should tell the story about a person before a word is spoken.

It is Trenell's mantra that *every room in your space should bring you serenity*. Serenity is defined by Merriam-Webster Dictionary as "the quality or state of being serene." With that in mind, Trenell launched her first product line in September 2022. She curates aromatherapy hand poured, 100% Coconut Soy wax candles infused with essential oils. Given that the therapeutic benefits of the candles include: cleansing the air, relaxation, and mind and memory stimulation, Trenell believes that *serenity is the new love language*.

Trenell keeps her family and faith close which has definitely contributed to her success. She's a recipient of the *2022 Best of Houzz Service Award* and the *2023 Best of Houzz Service Award*. She is driven by a passion for beauty and serene environments. This, of course, shows up in the luxurious spaces that she curates and in the amazing candles she creates.
